Tutoring Experience

I began tutoring in 2011, helping students prepare for IGCSE Maths exams and competitive entrance tests. My journey expanded to teaching IB Maths and AP Calculus, assisting students in mastering complex topics such as calculus, probability, and trigonometry. I've worked with learners from over 15 countries, tailoring my lessons to various curriculums.

Throughout my 12-year career, I've guided students toward achieving top grades and gaining admission to prestigious universities. My expertise also includes supporting A-Level students with advanced pure mathematics and mentoring IB learners in HL Maths topics. Many of my students have gone on to excel in their chosen fields, thanks to a solid mathematical foundation.
