Tutoring Experience

I began tutoring students in 2018 while pursuing my MSc, focusing on IGCSE Maths. Over the years, I expanded to teach IB and A-Level Maths, covering topics like calculus, algebra, and statistics. I have worked with students from diverse backgrounds and educational systems, helping them secure top grades and university placements.

In addition to secondary-level Maths, I have mentored students preparing for competitive exams, ensuring they build a strong foundation in advanced mathematical concepts. My teaching experience has equipped me with the ability to guide students through complex topics, from applied statistics to advanced pure mathematics, ensuring success across a range of curriculums.
